as an observer. The subject organization has not necessarily verified or endorsed this entry.

Subject: Organization | How CivicLens handles attribution

Evaluation period 1 Jan 2024 – 31 Dec 2024 (UTC) · Source guidance: Prefer audited statements and official reports.

Outcome

Review pending

No review has completed for this commitment yet. Pending is not a finding — nothing has been determined either way.

Evidence window is open. Evaluation period 1 Jan 2024 – 31 Dec 2024.

Rounds

No rounds yet. A round is recorded when a review completes.

Criterion ledger Exact criterion wording, the evidence used, and the reason for each result

01 Criterion 1 **Required** Review pending

Publishes an annual Scope 1 emissions report for 2024

Measured by: An official report covering the year is published and publicly reachable

No evidence was used for this criterion

Nothing the review read pointed at this criterion. That is a statement about the evidence on file, not about the organization.

Reason

No reason recorded.

Evidence 1 source on file

Why no transaction hash is shown

The deployed contract records the derived outcome but does not store the transaction hash that produced it. CivicLens will not invent one. Open this page with a `?tx=` parameter, or run the review from this browser, and the receipt and finality state appear here.
